About Aidni Infotech Private Limited

We would like to highlight some of the reasons why AIDNI INFOTECH PRIVATE LIMITED is suitable to execute this work-

We are a reliable and cost-effective Software & web solution provider to our customers and to take full responsibility for the success of the assignment that we undertake. We uphold the values and ethics of business and demonstrate that client satisfaction is our utmost satisfaction and honesty is indeed the best policy. It was established with the vision to become one of the leading Information Technology Service providers in India, by continuously striving for excellence through quality software and innovative development. We offer software as well as website design and development services to companies, organizations, small business, professionals and individuals by Using all the latest window and web technologies.

Overview

The Product

CAS 7.1 has a modular structure, which means that the entire software can be put together by implementing the different modules, each of which covers an important functional area of the college. CAS 7.1 comprises with a basic core, which covers the Student Admission and fees collection, Accounting, library, Access Security and Authorization. Modules offered for other areas are offered as 'add-on' modules over this basic core. Thus, CAS 7.1 has a built-in flexibility that allows the college to choose the modules that are relevant to the college.

CAS 7.1 is an integrated transactions handling, student services and management reporting system, ideally suited to computerize the operations of all module of any college. It has been designed to be user-friendly, flexible and provide end-users with comprehensive, accurate and up-to-date information. One of the foremost concerns of the college while considering automation is security. CAS 7.1 offers security in all possible areas and offers complete protection against misuse by restricting access to privileged information.

The security CAS 7.1 provides is as follows:

- End users have no access to Backend or Operating System
- Users identified as unique User-ID
- Menu access controlled through User Levels
- Passwords are maintained in Encrypted form
- Does not allow same ID & Password
- The minimum password length is 6 compulsorily.
- All users activities are monitored
- Every work are monitored and is recorded in the report
- Provides extensive report trail
- New user creation
- New administrator creation
- User deletion
- Administrator deletion
- Change password

ATTESTED

P. K. Roy

Principal

**Jatindra - Rajendra Mahavidyalaya
P.O.- Amtala, Dist.- Murshidabad**

Thus CAS 7.1, while being user friendly, still has a sophisticated security system. Further parameterization helps in customizing the system according to the requirements of the College without having to change the Source Code. CAS 7.1 is extensively parameterized at various levels. In each module, different type of report can be set-up.

CAS 7.1 is designed as a menu-based system, offering all functions from all terminals. It offers complete audit of financial transactions. Thus the system administrator can see what time any transaction took place and by whom it was done. Recovery procedures in CAS 7.1 provide for quick restart of operations in case of failure. Considering the future needs of the college, CAS 7.1 provides for interface with a number of additional devices. Provisions for necessary protocols have already been established in the software for this purpose.

College Automation Solution (CAS version 7.1), a product of AIDNI INFOTECH PRIVATE LIMITED, is ideally suited for college Automation, because of its following features.

About CAS version 7.1:

Student Admission and Fees Collection Module:

Features:

a. This college automation software comprises with three different processes of payment

- I. Online payment: - Through payment gateway using (debit, credit card and net banking)
- II. Cash deposit to bank, using bank challan collecting from online software.
- III. In college cash counter.

Using the above three methods a student will be able to make their payment throughout the year, starting from 1st year admission to college leaving certificate.

b. After making payment using online process, the detailed head wise amount will be viewed in the payment receipt copy.

Every time student will be able to get the duplicate copy of head wise payment details.

c. At the time of taking final admission in 2nd and 3rd year students had to enter their details (subject wise /paper wise) marks.

Just after making payment for provisional/ final admission of 2nd and 3rd year student will be able to get the printable page of their payment details which they will submit in the college office.

College will be able to get the daily collection sheet from online portal.

d. Three mode of payment will be provided to the daily collection sheet i.e.

- I. Online collection
- II. Collection by bank using online challan
- III. Collection in college cash counter using online software.

Head wise total amount of daily collection will be moved to our account software which will be automatically reflected from cashbook to balance sheet.

- e. After the 1st, 2nd and 3rd year admission all kinds of reports like student list, voter list, attendance register, i-card, etc. will be automatically generated by this software.
In different time and different kind of amount which will be paid by the student for different purpose i.e. head wise amount will be set by the administrator in this software And just after setting the head wise fees, administrator will approve it, then student will be allowed to make their payment through online portal. Student will get the barcode generated challan through online portal.
- f. College admission software consists with four level security
- I. Top super admin
 - II. Super admin
 - III. Administrator/ admin
 - IV. User
- In this software admin /user will be able to perform the specific activity of the particular portion how much he is entrusted by the authority.
- g. Student will enjoy the SMS alert facility in their mobile just after making any transaction.
- h. Student photo will be automatically viewed in the payment receipt copy, i- card, voter list, student list etc.
- i. Following the university subject combination and present subject combination of college, automatically matching subject combination will be provided to the student through the software.
- j. At the time of admission official approval will be provided by the head of the admission department.
- k. On the basis of various subject combinations, different type of fees/payment entry for admission and automatic checking for variation of fees entries will be provided through the software.
- l. After the successful admission, received copy will be automatically generated for student and office both part.
- m. All type of records of each student will be maintained, using admission register from admission of student to completion of course.
- n. Provision for provisional admission for 2nd and 3rd year students.
- o. This software can also provide duplicate receive copy for each and every student of each class in case of missing/loosing of their original receipt of either admission or other college fees.
- p. It also comprises with the provision of casual admission for 1st, 2nd and 3rd year students.
- q. This software will also provide the scope of admission for running 2nd and 3rd year student's details entry with the auto generated subject matching combination from previous year university subject combination.
- r. There is a scope of tuition fees calculation for each and every student for one or many months automatically.
- s. Provision of Transfer Certificate fees, receipt copy.

- OBJECTIVES OF E-GOVERNANCE IN JRM:
- CHALLENGES AND BARRIERS:
- CONCLUSION:

□ INTRODUCTION:

E-governance, from the perspective of Jatindra Rajendra Mahavidyalaya, means the application of information and communication technology (ICT) to deliver services to all stakeholders and to represent a significant transformation from traditional governance and administration to e-governance in our college. The journey of E-governance of JRM is distinct in its reliance on digital technologies and began with offering e-administration, e-services, and e-democracy in order to establish a more efficient, transparent, and participatory approach to governance that are aimed at automating government processes and improving service delivery.

□ COMPONENTS OF E-GOVERNANCE IN JRM:

E-governance of JRM comprises the following three main components outlined in brief:

1. *E-administration:*

E-Administration for Jatindra Rajendra Mahavidyalaya means the automation of internal government processes to enhance the delivery of efficiency, trouble free administration, and ease of fast delivery of services through respective administrations.

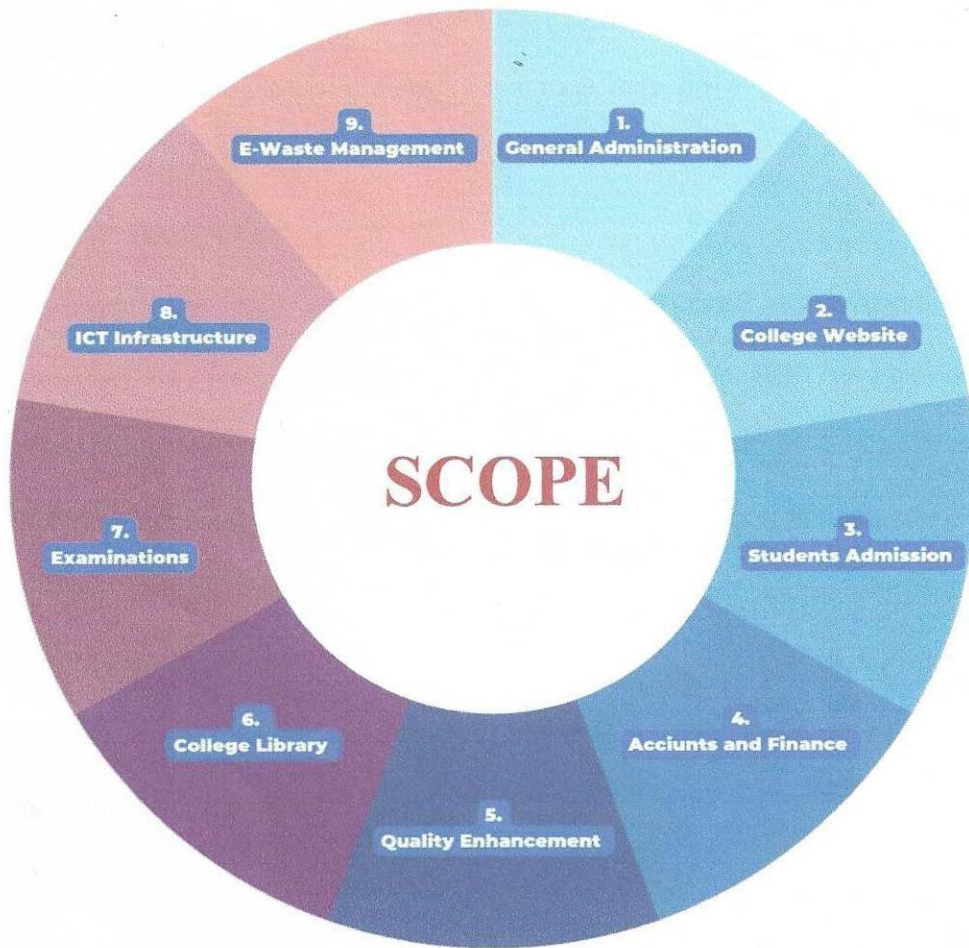

2. *E-services:*

E-Services are ensured through online to all stakeholders of the college, and are accessible to anyone and anytime from anywhere. Government portals and University of Kalyani portals consolidate various services; simplify interactions with the government and it reduces the need for physical visits except for necessary requirements.

3. *E-democracy:*

E-Democracy, primarily involves in the promotion of students' participation and engagement through digital platform

□ SCOPE OF E-GOVERNANCE:

1. COLLEGE ADMINISTRATION:

The college administration has extensively shifted to digital mode for the purpose of making a hassle-free, convenient and smooth process of running all chores of the college. Stakeholders are provided with online services such as communication and implementation of all policies. Most of the administrative duties are discharged through automation. From time to time administrative staffs are updated with the arrangements of new technologies, gadgets, and softwares. Internal marks of the students are uploaded in the university portal.

Students are given timetables, assignments, and other study materials as well. Biometric attendance machines are installed for the staff to register their attendance. Office staffs use Advance Excel and File Management System tools to record extensive database.

2. COLLEGE WEBSITE:

JRM website is the centre stage of the college that mirrors all its activities, information and services. Anybody from anywhere can access to the website. JRM has upgraded its website in recent past from www.old.jrm.org.in (old) to www.jrm.org.in (new). To safeguard and monitor the website, a third party called Aidni Infotech Pvt Ltd, Kolkata has been given the tasks of all its management like hosting rights. All relevant information and materials are present in this website ranging from data of all staff, study materials, routine, calendars, notices, tenders etc. At the college level, there is a Sub-Committee to update everything according to the needs of the college.

3. STUDENTS ADMISSION:

The college employs an open and transparent strategy for the admission of the students strictly following the guidelines of the University of Kalyani and the Government of West Bengal. College publishes brochure before the admission process to aware students about important dates and instructions. University activates Admission Portal during the admission process. All admission related process like admission form fill up, withdrawals, fee submission etc are done only through the active portal since 2015-16. For enrollment of student in the next semester we have been using the CAS 7.1 Web (Version No. 7.1.). The link – www.onlineadmissionjrm.org.in has been used for admission.

4. ACCOUNTS AND FINANCE:

The Financial and Accounting works had been managed manually so far and hard copies of them were kept in college record but from the F.Y 2022-2023 onwards we have been using account module (Version – CAS 5.0.044) provided by Aiqni Infotech Pvt.Ltd. Through this module college maintains financial records effectively and efficiently. Profits and loss, balance sheets are also done in this module. Integrated Financial Management System (IFMS) is implemented by the Finance Department of Government of West Bengal with the goal to ensure better fiscal management and efficient financial operations for funds, salary, generation of salary slips, etc.

5. QUALITY ENHANCEMENT:

IQAC of the college enhances e-governance. Feedback from students and alumni are collected through online. For teaching learning improvements college provides ICT enabled tools to boost easy understanding of the students. Teachers are motivated to use slides, videos, pictures etc in their teaching process to captivate the attention of the students.

6. COLLEGE LIBRARY:

College is chugging on to maintain over 27500 books. Earlier the library used to record all library related activities in offline. OPAC book search is available for the students and teachers. Library is to extend ILMS automation through which students and teachers can find their learning materials. Circulation of books for the teachers and students is maintained through Library Module (Version No. LMS-5).

7. EXAMINATIONS:

Since the A.Y 2020-2021 Students have been using the portal of University for form fill up of examination. The link of the portal is <https://pcdpcal.com/ku-sem1-2023-form-submission/> conducted by the University. The result of students are also published on the website of Kalyani University and the hard copies of results are sent to our college along with soft copies since 2018-2019 session through college E-mail. Now we have made a data entry in our college automation module from this hard copy.

8. ICT INFRASTRUCTURES:

To improve e-governance, our college enhanced ICT Infrastructure through e-tenders. Number of desktops, laptops, printers and new internet connectivity has been installed. The college also supplies a high-speed Wi-Fi connectivity at the speed of 120 Mbps for the teachers, students and Office staffs. We purchased it from Alliance Broadband from a Local Provider. The whole campus has been under the

9. E-WASTE MANAGEMENT:

Whatever e-waste are generated from the office are kept up at one room for sales, but the reusable items are repaired, maintained and utilized as far as possible. College is always abiding by the concept of environmental sustainability.

❑ OBJECTIVES OF E-GOVERNANCE IN JRM:

The implementation of e-governance in our college brings numerous benefits to the stakeholders, and enhances the efficiency, transparency, and inclusiveness of its administration.

1. *Efficiency and Effectiveness*: E-governance aims at the reduction of costs and savings of time with the automation of government processes and minimization of paperwork. It is destined for the improvement of service delivery and faster response times and higher accessibility, and enhancement of stakeholders' satisfaction.
2. *Transparency and Accountability*: Every digital platform used for e-governance in our college increases transparency with the availability of government information before hand. Such type of open data initiatives and online reporting systems enable our students to monitor government and college activities in order to avoid corruption and to foster accountability.
3. *Citizen Empowerment*: E-governance empowers our entire stakeholders by giving them the tools to access information and enables them to hold the college administration accountable.

❑ CHALLENGES AND BARRIERS:

Despite several advantages of e-governance in our college, we face many challenges to reach to its full potential. They are as follows:

- With regard to the technological challenges, the digital divide hinders the adoption of e-governance to some of the stakeholders.

- Cyber security threats and data privacy concerns also pose significant risks that require robust measures to protect sensitive information; hence the IQAC conducts soft skill programmes in this regard.
- Insufficient organization of Effective training and capacity-building programs are carried out during the last five years to equip stakeholders to enhance their necessary skills.

❑ CONCLUSION:

In short, E-governance of our college represents a transformative approach to administration. It adopts technology to enhance efficiency, transparency, and stakeholders' participation. While several challenges remain present before us, the benefits also very much laudable, and future potential of e-governance must be improved to make it a crucial component of our modern governance.

❑ FUTURE PERSPECTIVES:

- College is to adopt full scale automation of Library Management System for simplicity, efficiency and transparency.
- JRM has been adopting e-governance to certain extent like accounts and finance management, attendance registration through biometric machines, CCTV enabled campus, etc.
- In the near future, the institution is to procure ICT tools and services to enhance e-governance.
- ICT enabled teaching learning process and trainings are to be promoted in the future.

The Governing Body in its Meeting No. ...17..... held on .16/07/24... has approved the following Annual Report on E-Governance for 2018-19 to 2022-23.

Annual Reports on E-Governance (2018-19 to 2022-23)

E-Governance is the use of Information and Communication Technologies in the field of governance covering the areas of administration, services and facilities with the view to provide efficiency, transparency, and hassle-free. Moreover it functions as the hub of records keeper of the college. Adaptation of E-Governance is the need of the day for the college and therefore upgrades and procures updated versions of technological tools for better functions of teaching learning process.

Jatindra Rajendra Mahavidyalaya has identified its difficulties and troubles while discharging duties and responsibilities in offline mode, hence it wanted to improve services for betterment of all by procuring and maintaining the following areas.

□ Administration:

JRM is a state-aided college, located in the rural and backward areas of Murshidabad district and abides by the directives, rules and regulations of the Higher Education Department of the West Bengal Government and the University of Kalyani. Therefore, Higher Education Department of Government of West Bengal enabled E-Governance portals that form a part and parcel of JRM administration. Human Resource Management System (HRMS) serves as the portal where the human resources of the college like faculty information and database are updated and managed. E-Governance is enhanced through the followings:

- Publication of relevant information to the stakeholders and society.
- Updated version of user friendly website.
- Semi-automation of Library services.

Jatindra-Rajendra Mahavidyalaya
P.O. Amtala, Dist. Murshidabad

- Governments' schemes, salary, pension, pay slip generations, etc through dedicated IFMS of Government of West Bengal.
- Communication and Information through E-mail, WhatsApp Groups, JRM Info App, and Facebook Page.
- Procurement of ICT tools and development of teaching learning process.
- Two high speed internet connectivities through Wi-Fi.
- Attendance registration through biometric machines.

□ Finance and Accounts:

In response to the Central Government's Public Financial Management System (PFMS) regarding the finance and accounts, the Government of West Bengal adopted Integrated Financial Management System (IFMS) where all information related to fulltime teachers and non-teaching staff, salaries, pensions etc business are conducted, monitored and controlled. It also allows resource mobilization in accordance with increments, promotion to grade pays. Besides the following exemplifies E-Governance:

- Online admission and examination fee submission.
- Online salary and pension disbursements.
- The Financial and Accounting data are recorded using account module (Version – CAS 5.0.044) provided by Aidni Infotech Pvt.Ltd.

□ Students Admission and Support Facilities:

Digital platforms have enhanced students' facilities in more robust way during the pandemic period as far as E-Governance is concerned. It enabled hassle-free, efficient, transparent, inexpensive services. The following accounts boosted the concept of E-Governance to its full scale.

- Information regarding admission, examination,
- Online Admission Module for smoothly conducting the students' admission process for B.A 1st Semester and for enrollment of students in the following semester using the CAS 7.1 Web (Version No. 7.1.).
- Under Graduate Examination Form Submission Portal of Kalyani University.

16/07/24

- Result publication in the university website and Soft copies of Result stored in college data base.
- Uploading of internal marks in the university portal.
- Online reviews of examination papers.
- Learning Management System provides learning materials for respective departments.
- Scholarships of governments and agencies are managed online.
- Wi-Fi enabled college campus.
- ICT enabled classrooms.
- Information on different sub-committees and cells.

□ **Additional Information:**

- JRM has deployed several ICT tools like computers, laptops, monitors, projectors, etc.
- Installation of additional CCTVs at every nook and corner of the college.
- Smart TV at the chamber of the principal.
- Device storages for data transfers and records.
- Various WhatsApp Groups opened for better circulation of notices and information.
- Development of JRM Info App by one of the students.
- E-tenders called for only through college website.
