## REPORT ON NSS EXTENSION ACTIVITY Awareness Camp on Dengue

There is no denying the fact that a lot of diseases can be traced back to unhygienic conditions and irresponsible waste disposal. Swachh Bharat Mission, the world's largest sanitation initiative was launched by the Prime Minister of India in 2014 to achieve an Open Defecation Free India by October 2, 2019, as a tribute to Mahatma Gandhi. To pay homage to our national hero and this governmental scheme, the NSS Unit of our college ensures regular cleanliness campaigns on the campus; facilitates cleaning of all toilets, classrooms, departments and restrooms on a daily basis; organizes awareness programmes and extension campaigns related to health, hygiene and sanitation; encourages the use of eco-friendly items and cautiously regulates waste generation and disposal within the college premises.

The outbreak of dengue fever is a menace in regions like Amtala which is located in the Naoda CD Block of Murshidabad. Each year, up to 400 million people are infected by the dengue virus worldwide, approximately 100 million people get sick from this infection and around 40,000 populace die from severe dengue. In view of this alarming social concern, the N.S.S volunteers of our college have organized dengue awareness campaigns in different areas of Amtala on several occasions during the academic session 2019-20. An Awareness Camp on Dengue was organized on 12.06.2019 and 31 participants visited the village of Kanapara to conduct a hygiene awareness session and empower communities with life-saving knowledge and information related to the disease of dengue. The primary agenda of this programme was to check a major upsurge of communicable illnesses like dengue, malaria, typhoid, diarrheal diseases, tuberculosis, etc. as well as several non-communicable diseases by explaining their causes and the methods and techniques

for effecting their cure in this rural, underprivileged region. The NSS volunteers further ensured basic sanitation supplies and distributed hygiene kits (mosquito nets have been delivered at regular intervals to the economically burdened families) among the socially vulnerable inhabitants of Kanapara and educated the masses about the need of safe sanitation in both urban and rural households. The N.S.S unit has thus played a pivotal role in fostering awareness among the inhabitants of this village through their extension activity and have acquainted them with ways of combating this highly infectious disease.
