### Report on NSS-Conducted Extension Programme

Title of the Extension Programme: An Appeal to Stop the Wastage of Drinking Water

**Venue of the Programme:** Sankoa **Date of the Programme:** 19/03/23

#### Introduction

Water is a limited resource that we are all guilty of taking for granted. By conserving water, more people in the world will have enough of this liquid asset to perform essential day-to-day activities. Alarmingly, freshwater is becoming more of a scarce natural resource with each passing year. Population increase has caused a rise in the water demand while severe droughts have limited its supply. Pumping groundwater faster and more frequently before it can renew itself leads to a threatening shortage of groundwater supply. To address groundwater depletion, everyone has a significant role to play. We need to save water to continue our daily activities, to grow the food that we eat and to preserve natural habitats. Saving water also reduces the burden on water treatment facilities, saves money and energy. Most importantly, saving water ensures that we leave behind a sufficient supply of water available for our future generations. In pursuance of disseminating these essential facts and saving precious water from callous wastage the NSS Unit of Jatindra-Rajendra Mahavidyalaya conducted an outreach programme on 19.03.2023 in the Sankoa locality of Murshidabad.

### **Objectives**

- 1. Evoke general consciousness and conscientiousness about the necessity to save water
- 2. Enumerate the dangers of misusing and mistreating water
- 3. Recommend measures to cease the wastage of water

#### **Activities Conducted**

The programme included the following activities:

- 1. Conducted door to door visit in the locality of Sankoa to generate awareness about the urgency to preserve this lifesaving liquid resource
- 2. Acquainted the local residents with water conservation techniques applicable at home
- 3. Displayed water saving posters and placards

#### **Participation**

The convenor of the NSS Unit of J.R.M. was assisted by 6 faculty members and 21 students in this extension activity. Along with them, the locals of Sankoa actively participated in this campaign by expressing their desire to learn more on this subject and willingness to execute the promulgated measures.

#### **Programme Outcomes**

The extension programme successfully achieved its objectives with the following notable outcomes:

- 1. The campaign successfully accomplished all its set objectives
- 2. The Sankoa residents have later reported to utilize most of the advocated measures to save water
- 3. The targeted group has sufficiently benefited from this extension programme.
