Introduction:

In a broader perspective the festival of Rakhi (Raksha Bandhan) conveys an intrinsic message of universal brotherhood and sisterhood. This ceremony carries a message that has socio-spiritual significance underscoring the need for nurturing of positive qualities and purity in thought, word and deed. This ritual not only strengthens the bond of love, but also transcends the boundaries of the family. The NSS Unit of Jatindra-Rajendra Mahavidyalaya had organized the celebration of the “Raksha Bandhan Utsav” on 12.08.2022 to foster this spirit of harmony, inclusion and universal brotherhood among the stakeholders of the college and the local inhabitants of the surrounding region.

Objectives:

1. Foster the ideals of unity and brotherhood
2. Nurture tender emotions and habits
3. Celebrate the universality of love and attachment transcending all boundaries

Activities Conducted:

The programme included the following activities:

1. The NSS volunteers tied “rakhis” (a kind of amulet) around the wrists of the college students, pedestrians and commuters outside the college main gate
2. They pledged to the receivers and to themselves to perpetuate this bond of love and protection beyond the particular day of celebration

Participation:

The NSS Unit of J.R.M. was accompanied by 23 volunteers in arranging this outreach programme. The entire college fraternity and the pedestrians and commuters outside the college also wholeheartedly and enthusiastically formed a part of this grand celebration of universal love and unity.

Programme Outcomes:

The extension programme successfully achieved its objectives with the following notable outcomes:

1. It was instrumental in fostering harmonious relationships irrespective of caste, class, religion, creed, gender, etc.

Celebration of College Annual Cultural Programme

Name of the Event : Annual Cultural Programme – College Social

Organized by : The Cultural Committee of Jatindra-Rajendra Mahavidyalaya.

Date : 08-02-2023

Time : 12.00 P.M.

Venue : Amtala High School Play Ground, on the Northern Side of the College Campus.

Culture can be defined as the arts as well as the intangible shared beliefs, values, and practices of a community. Students participate in arts and culture at varying levels of skill and engagement. Some create, while others listen to, watch, teach, critique, or learn a cultural activity, art form, or expression. Some are professional artists, designers, and inventors, while others engage informally in expressive activities or create innovative tools, relationships, or products. As social and cultural activities are of paramount importance, Jatindra-Rajendra Mahavidyalaya encourages all extra-curricular activities that are both in line with the educational objectives of the institution and meet the needs of the students.

Every year the Cultural Committee of Jatindra-Rajendra Mahavidyalaya organizes annual social programs, cultural competitions and shows. The annual college social program is held on the Amtala High School Play Ground situated adjacent to the college. The selected 11 students of the college participate in the various segments of the annual social programme. This provides them an opportunity to develop their creativity, artistic expressions, team-work and organizational skills.

To perpetuate this legacy our college carried forth the rich cultural tradition during this academic session as well by engaging the students in creative performances and artistic endeavors in the Annual Social Programme of the college. Around 850 enthusiastic students formed part of the large audience to make this event a grand success. The annual social day program was inaugurated on 08.02.2023 by auspicious hymns chanted by some senior female students in a chorus. This invocation was succeeded by various performances like recitations, songs, dance and dance drama theatrical performances and the like by the other students of the college. In the latter half of the programme, some guest performers from a local professional band evoked the admiration of the audience and heartily entertained the students. Besides them, the Governing Body members, the Honorable Principal and the teachers and non-teaching staff of J.R.M. also attended this social event for sometime to foster a spirit of unity and brotherhood among all the stakeholders of the college.

❖ **AIMS AND OBJECTIVES:**

The primary goal of the Debate Competition was to develop the soft skills of the students by keeping in mind the vision of providing opportunities to the students to discuss relevant issues and ideas on ethical values of Indian Constitution and to engage in activities benefitting their personal and professional development. In case of no question, the speaker may conclude the speech. In such situation, judges are entitled to give marks to the speaker favorably due to no questions to the speaker.
- Direct and to the point types of questions should be confined to the topics of debate and comments or rhetorical statements or jargons are strictly discarded.

■ INTRODUCTION:

Memory Testing is one kind of methods and manipulations that serve to enhance power of retention and recollection of information that is presented to the students in various learning contexts and has been a mainstay in the area of teaching and learning process. A memory competition is an event where students test their memorization abilities against each other. It tests the capabilities of Working Memory, Short-Term Memory, and Long-Term Memory. Working Memory is the sensory information store based on various sensory organs such as eyes, ears, touch etc and the brain protects information from such sources. To retrieve that information requires a great amount of attention. Attention means that the brain protects the information from other interferences for higher level of thoughts in search of meaning. Short-Term Memory is a limited store for information and becomes inaccessible due to arrival of new information; thus such information is easily forgotten or lost. But repetition or rehearsals might retrieve such information. Long-Term Memory deals with large and different types of events, perceptual skills, knowledge and facts. Memory Testing Competition aims at the findings of factors that affect accessibility of information from memory like conditioning of memory during storage, the frequency of usage, similarity between the new information and existing ones and uniqueness of information.

■ BRIEF INFORMATION:

Name of the Programme: **Memory Testing Competition**

Organized by : Department of Philosophy

Patron : Prof. Geetali Bera (HoD, Philosophy)

Moderators : Prof. Abdul Halim Shaikh and Prof. Subhadip Mukherjee

Judges : Prof. Tania Khatun and Prof. Sufal Kumar Sarkar

Photography : Prof. Fathema Khatun and Prof. Nawab Sharif

Number of Participants: 45

Audience : 54

OVERVIEW:

Human memory storage works by first storing information in the working memory, where it is actively processed and stored for retrieval at a later time. This stored information can be recalled when needed. Likewise the Department of Philosophy organized a Memory Test Competition, for the honours students of philosophy and those interested, on 28th July, 2022 from 2.00 p.m. to 3.00 p.m. This competition was designed to improve the students' short-term memory and its instant processing skills of information along with speed-recognition skills and Long-Term Memory skills as well. The students were given only five minutes to see 80 photographs which were hanged across the white board of the room no. 13. After the allotted time for visualization, they were taken down by the teachers and the students were given only 10 minutes to write them down on their own papers. Students completed this task with great enthusiasm.

■ AIMS AND OBJECTIVES:

- To enhance memory by linking of observed pictures to associable items in memory,
- To determine familiarity between pictures easily
- To improve a long-term retention of the items to a greater degree,
- To develop recall and sequencing skills of the students,
- To assess short-term memory capabilities of the students,
- To detect cognitive skills and problems,
- To know how quickly students can process information

■ PROCEDURE AND ANALYSIS:

Memory Testing Competition is designed to measure the strength and capability of students' long-term memory and short-term memory also. For testing the long-term memory, we presented a series of 80 different photographs hanged along the white board of the class room for a period of five minutes. Then we asked the students to see them and remember them. After the allotted time of five minutes the photographs were taken down and students were asked to write them by recalling them.
